TELEGRAPHIC BREVITIES.

—Bar silver 101 3/4.

—A Hungarian journal advises Austria to attack the Russians before they have a chance to Russianize the Balkan States.

—The Paris papers compliment the Chamber of Deputies on the prudent and dignified silence observed when voting the army credit.

—A cadet of a Russian Military school recently suicided upon the discovery of his complicity in a plot against the Government. Deceased was a Prince.

—The popularity of General Boulanger among the French people is said to be rapidly increasing. He is regarded by the masses as their long expected liberator.

—One hundred horses and a large number of carriages were destroyed at St. Louis last night by the burning of a livery stable. Several persons were killed by a falling wall.

—It is thought a communication which recently appeared in the Paris *Figaro*, attacking the virtue of the German women, will raise a storm of indignant protest in Germany.

—It is thought that Cardinal Jacobini's letter to the Nuncio at Munich will lead to a lively debate in the Chamber of Deputies. The church authorities hope to bring a pressure on Italy which will make her yield to the Vatican's wishes.

A Murder Averted.
BRISBANE, Queensland, Feb. 10.
The expedition that went to New Guinea to avenge the murder by the natives last October at Johannes, of a captain, two sailors and six Malays of a ship while they were engaged in pearl diving, has returned. The enterprise was entirely successful; the native chief responsible for the murder was caught and beheaded, and the village where he and his accomplices lived was burned.

Mrs. Henry Wood, the novelist is dead—97 years of age.

An Absolute Cure.

They Were Firemen.
Ellsworth's New York Zouaves came to Washington among the first regiments in 1861. The Zouaves placed great importance in the fact that they all had belonged to the Fire Department of the City of New York. One day two of them strolled into the office of the Secretary of War and accosted the clerk, saying: "We want to know when we are going to have a battle." "Really, sir," replied the clerk, "I could not inform you, even if I knew. You see, if we should tell the people who ask, the enemy would soon find out our plans." "Well," said the Zouaves, "nobody wants you to tell the people, my little man; we ain't people, we are firemen."—"Ben! Perly Poor, in Boston Budget."

Dramatis personae: "Three little boys from school." Dialogue: First little boy to second little boy, who has just bought five cents worth of peanuts: "Gi' me some peanuts, Johnnie." "Naw, I won't." "Why not?" "Whined first little boy." "Cos, you never gi' me anythin', an' whenever I git anythin' you always 'hump' me for what I've got." Third little boy, who has been diplomatically silent: "I didn't ask you for no peanuts, did I, Johnnie?" "Naw, yer didn't, 'cos yer didn't want none," and Johnnie, munching his peanuts, walked off unconcerned, leaving his companions with faces on which blank consternation and bitter disappointment were plainly depicted.

A NASAL INJECTOR free with each bottle of Shilo's Catarrh Remedy. Price 50 cents. Sold by Osburn & Shoemaker.

Harper's Weekly of February 5th contains on the title page "A Query for Congress." "Are We in Position to Twist the Lion's Tail?" Above this question is a caricature of our rotten navy, dilapidated forts and abandoned coast defenses. Beneath the latter is the picture of a large lion standing over an inoffensive fish, while Senator Ingalls is twisting the lion's tail. In the background are gentlemen with plug hats throwing stones and shaking their canes at the lion. The inference is readily drawn from the caricatures and the question, "Are We in Position to Twist the Lion's Tail?" As long as we are at peace with every nation on earth, will we ever be in condition to twist any tail. So long as we stand the abuse and apologize for every insult offered us by Chili, Peru or England, just so long will Congress neglect to appropriate sufficient money for needed defenses of our coast or inland. We do not desire war with any country for war only devastates and the result never compensates for the loss of life and property, but we Americans never learn that an ounce of prevention is worth a pound of cure, so we never prepare for the day of wrath until the day is come. The dispatches from the East have been rather foreboding of late and if this hubbub should prove merely a tempest in a teapot, but result in our navy becoming fully equipped, our coast defenses properly constructed and the nation placed upon a proper war footing, we will have gained by it.

The call of Dr. McGlynn of New York to Rome, to answer as to why he did not obey the orders of his superior, the Pope, has caused considerable discussion in the Roman Catholic Church and in labor circles. The case as it stands may be stated succinctly as follows: Dr. McGlynn was the rector of St. Stephens' Church, in New York, and being a warm personal friend and believer in the theories of Henry George, took a great interest in the latter's election for Mayor of that city. The bishop forbade the doctor taking any prominent part in the canvass, but in spite of all orders, Dr. McGlynn addressed a public meeting in behalf of Mr. George, and for this act was promptly relieved of his duties as rector of the church. He was then ordered to appear before the Pope at Rome, but refused to do so. The Labor party sustain him in his position, saying the church had no control over his action as a citizen, while the church holds that though he may vote as he pleases, he is nevertheless subject to the control of the church. Dr. McGlynn's position at present is regarded as somewhat rebellious, as obedience to the church is required of every one who enters it. Having made this promise of obedience he should either obey the church or leave it. The Labor party in upholding Dr. McGlynn are committing an act which they would denounce in their own ranks as most dangerous to the success of their own cause, for the submission which they preach he must himself practice.

A bill is introduced into the Legislature to place the office of Supt. of Schools in the back yard of the District Attorney. Why not dig a hole and bury the office? It has been used so long as a foot-ball and kicked around so much by politicians that it is now of little account even as a plaything. The candidate for office before election talks of the great, good and glorious free American school system; but when he gets a legislative office the first thing that he thinks of is to cut off the head of the system or strangle it and throw it in the back yard of some political office-holder.

Bradstreet's, the weekly financial and commercial newspaper published by the Bradstreet Company, is now in its 15th volume, and is surpassed by none of the financial and commercial periodicals of this

country or in Europe. In the 14 volumes already issued can be found a great diversity of original and carefully prepared matter—facts and figures—relating to business topics than in any other periodical during the same period. Nor is it surprising that it has reached and maintains this position for it is owned and published by a large corporation—with its cash capital and assets of over \$1,400,000, its nearly 100 branch offices, and its small army of over 1,600 salaried employees and 65,000 regular correspondents. This organization makes extensive investigations into industrial and other matters, gathers full reports of the condition and prospects of the leading crops, and reports regularly each week the condition of trade throughout the country, thus practically making Bradstreet's an authority as to the condition and prospects of the commercial world. It needs but a glance at the newspaper to satisfy any one that its publishers have been ambitious rather than avaricious. Files of Bradstreet's have become an acceptable and almost indispensable journal for progressive business men.

Attempted Postoffice Robbery.
BOUND BROOK, N. J., February 10. Daring thieves entered the Post-office here last night. They were discovered by the railroad agent, and he at once opened fire on them. One thief was shot, but managed to get to the Raritan river, where he jumped in, hoping to escape by swimming to the other side. The loss of blood weakened him greatly, and the icy water numbed him so that when a short distance from shore he uttered a despairing cry, sank and was drowned. The pal of the drowned thief made a desperate struggle for freedom, but was overpowered and taken into custody. The robbers were members of the same gang who entered the Jersey City Postoffice a few days ago; bound the watchman and janitor, and tried to rob the safe.

A Husband's Crime.
BOULDER, Col., February 10. Mendolin Moll, living at Left-hand Creek about eight miles from here, shot his wife in the neck Monday morning while she was asleep in bed, and then disappeared. The couple have been very unhappy until about three weeks ago when their first baby was born, since which time Moll has been very abusive and quarrelsome. The shot had the effect of paralyzing Mrs. Moll so that she could not help herself or baby. The fire went out and the baby cried until midnight when it died. The woman was not discovered until Tuesday night when some relatives called at the house. She cannot recover. The murderer is being pursued into the mountains where he is thought to have escaped to.

No Mormon Lobby.
WASHINGTON, February 10. Delegate Caine said yesterday that the story coming here that a strong Mormon lobby is at work against the Edmunds-Tucker bill, is incorrect. He says that Judge Smith and Mayor Armstrong are coming east, by the direction of the Salt Lake county court, to make an inspection of the prisons, with the view of utilizing the information thus obtained in building a new county jail during the coming summer, and that they have no intention of visiting Washington, and that as far as Mr. Ritter is concerned, he is still in Salt Lake.

Will Comply With the Law.
NEW YORK, February 10. About 40 representatives of the Companies embraced in the Southern Railway and Transportation Association, met here yesterday afternoon. The Inter-State Commerce bill was discussed and it was decided to instruct the Rate Committee of the Association to look over the rates, and where conflicting with the provisions of the bill to revise them. The general sentiment of those present was, to comply with the requirements of the law, although the most of them were in ignorance of its details.

An Irreparable Loss.
ST. LOUIS, February 10. Besides the pecuniary loss which resulted last night from the destruction of Jesse Arnold's livery stable, one loss was suffered which is irreparable. The hearse in which the remains of Abraham Lincoln were conveyed to their last resting place was consumed in the flames.

Widespread Inconvenience.
BOSTON, February 10. Everything on the Cambridge street railroad is at a standstill, no cars having been started. As Cambridge, with the exception of the northern portion, is dependent on the street-cars for communication with Boston, the condition of affairs is causing widespread inconvenience.

Congressional Matters.
WASHINGTON, February 10. The Senate has agreed to the House substitute for the Senate Chinese indemnity bill. The Senate has passed the bill prohibiting off shore mackerel fishing during the spawning season, by a vote of 84 to 11.

(PRESS DISPATCHES TO THE GAZETTE)

A Diabolic Attempt to Kill Patti
SAN FRANCISCO, February 9. A dramatic and sensational episode occurred to-night at the Grand Opera House, where Adelina Patti was giving her last concert of the season, and which was also announced as her last appearance in this city. The incident will tend to make her farewell performance here memorable.

At 10:20, after Patti had twice appeared in front of the curtain in response to recalls at the conclusion of the aria from "Travista," and just as she had retired again to the wings, a tremendous explosion was clearly heard above the vociferous applause, and a cloud of smoke was seen to rise over the railing of the top gallery. Instantly every lognette in the house was focussed on the portion of the house where the exciting scene was transpiring, and a panic was imminent. The people in the gallery were rushing about seeking the quickest means of exit, and it was only by the self-possession of the newspaper men present in a box, coupled with that of the Diva, that a stampede of the entire house for outdoors was prevented.

The newspaper men were in the stage box, and quickly perceived that no serious result had occurred, and that the danger was over. They communicated by nods and motions to Patti, who was still in sight in the flies, to come before the curtain. She comprehended the situation, came forward quickly, and giving the cue to Arditi, began to sing "Home, Sweet Home." This had a charming effect on the audience, and though many left to ascertain the cause and effect of the unexpected punctuation to the performance, the concert was carried on to its conclusion.

As soon as the location of the trouble could be learned, a policeman rushed to the scene and found a man with a badly burned face and hand moaning with agony, and the remains of an infernal machine about him. He was placed under arrest and conveyed to the Receiving Hospital, where he stated that he had stooped to pick up his hat and cane and found a package under the seat, which he picked up, and that as he raised it to see what it was it exploded.

Though he was badly burned about the face and hands, it is believed he received no serious injuries. No other person is known to be hurt.

He gave his name as Dr. James Hodges, a dyspeptic specialist, his residence as 4 Central place, and his age as 71. Others, however, give a different and undoubtedly correct version of the affair. A lady who sat next him and narrowly escaped injury, states that during the evening he made a number of significant remarks which pointed clearly to the purpose he later attempted to carry out. Among the observations which the lady distinctly remembered was: "Patti is singing excellently to-night, but will never sing any more." He was also heard to make uncomplimentary and revengeful allusions to J. C. Flood and family, who were present in a box.

At the Receiving Hospital, after his wounds were dressed, the Chief of Police attempted to make him commit himself, but was completely unsuccessful. He stoutly maintained his innocence. The Chief of Police pronounces him a crank.

The bomb was made of a can filled with powder, in the center of which was a bottle. The can was wrapped in pieces of cloth soaked in inflammable oil, and it is believed that the intention was not only to kill Patti and those near the stage, but to set fire to the building. It was arranged to explode by a number of friction matches which connected with a fuse inserted in the powder.

The theory is that the fuse burned too quickly for the crank, and the explosion was premature. Though Patti performed her part in the evening's programme to a finish, it was noticeable that the occurrence had considerable effect upon her, and somewhat subdued her usual vivacity.

Fired by Kerosene.
LOS ANGELES, February 10. Last night a compositor employed in the Commercial job printing office,

on Los Angeles street, upset a kerosene lamp, which set the building on fire. The fire got under headway, destroying the office and printing material of the establishment, damaging the building badly and destroying another job printing establishment belonging to J. Templeton; also damaging the stock of Smith & Heffner, the owners of the building, and a large amount of carriage making material belonging to them. The saloon of Bob Haines, beneath, was also damaged. Loss, \$150,000; partially insured.

Firemen Killed.
SAN FRANCISCO, February 10. A fire broke out this morning at 619 Post street, occupied as a Chinese laundry and Japanese fancy store. It communicated to a residence adjoining on the west. The wash-house suddenly collapsed, burying a number of firemen. John Williamson, a fireman, was killed and three others are believed to be fatally injured. It is supposed that several Chinamen are among the ruins.

An Active Volcano.
SAN FRANCISCO, February 10. Hawaiian advices just received in this city state that the volcano of Manna Loa, on Hawaie Island, is again active. Its activity was resumed on the 16th of last month. A great many earthquakes have taken place at Hilo, and the lava flows have run a great distance in the direction of Kahuku Kan, and is making its way toward the sea.

A Mining Incorporation.
SAN FRANCISCO, February 10. The articles of incorporation of the West Crown Point Mining Company have been filed. The directors are John H. Dickenson, John F. Taylor and Charles Hirschfeldt of San Francisco, and E. Strother and Franklin Ward of Virginia City. The capital stock is \$5,000,000 divided into 100,000 shares.

Not Guilty.
SACRAMENTO, February 10. The jury in the case of McWhorter, editor of the Marysville Democrat who shot and killed Deputy Marshall Robinson, brought in a verdict of not guilty this morning.

Flooded by Ice-Gorges.
LONDON, Ontario, February 10. The north branch of the river Thames has again overflowed its banks and nearly all the houses in the southern end and west part of the village are flooded, some to a depth of three feet. The moving ice has destroyed a portion of the wall of the Sulphur Springs building, and also about 50 feet of the breakwater between Blackfriars and Kensington bridges.

Lyons, Michigan, February 10.
Lyons is a sea of ice; Grand river rose during the night, about four feet, and an ice-gorge formed just below the city. The whole business part of the town is under water and great damage has been sustained. The loss will reach in the thousands. Several families have been driven out of their dwellings and others took to the upper stories. The ice-gorge covers an area of about 400 acres and it is estimated to be 20 feet thick in places. All mails are shut off from the north and west.

Killed by Wild Bulls.
MEXICO, February 10. Several wild bulls broke loose yesterday while being driven through the city, and killed a number of persons. The bulls were the famous Atenco breed and were destined to be used in a coming bull fight. Two of them entered the court yard of the National police and were shot down by the soldiers. The affair created much excitement.

—Hereafter, Lincoln's birthday is to be celebrated by the New York Republican Club by a dinner at Delmonicos.

CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by great odds. Each and all of these inventions are warranted to do all claimed for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the actual work of hundreds, and received the unqualified endorsement of all. See circulars mailed upon application to

DAYTON, NEVADA, FEBRUARY 5, 1907.
This is to certify that last season we used the Climax Stackers in putting up 1500 tons of hay, in very fine joints; that it did its work well, and in my estimation is not equalled by any stacker or hay-lifting appliance on this coast.

A Permanent Organization Wanted

The Republicans of New York have a new social club, which is to bring itself and party into the public gaze by a great banquet at Delmonico's on Lincoln's birthday. The San Francisco Post says the California Republicans appear to have lost their enthusiasm since the election. There is nothing here corresponding to the Union League and Republican clubs of New York; the Dirigo can hardly be considered a complete equivalent—and after a defeat the party nurses its dragged feathers and feels in no humor for celebrating. Why does it not form a permanent organization that can stand fire and cheerfulness?

A Luxury and Necessity

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottles for sale by Wm. Pinner, Reno, Nevada.

A Thoughtful Livery Man.

Mr. Benson, the popular livery man, treated the young ladies of Mt. St. Mary's Academy to a grand sleigh ride yesterday morning. Their enjoyment was enhanced by a break-down near the Seminary, but aside from a tumble in the snow and a few rents in wraps, no injury was sustained. Mr. Benson has the hearty thanks of the Sisters and young ladies for his thoughtful kindness.

Not a California Bear.

Anybody can catch a cold this kind of weather, the trouble is to let go, like the man who caught the bear. We advise our readers to purchase of Osburn & Shoemaker a bottle of SANTA ABLE, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. 'Tis pleasing to the taste and death to the above complaints. Sold at \$1 a bottle or \$3 for \$24. CALIFORNIA CATR-CURE gives immediate relief. The catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months treatment \$1; sent by mail, \$1.10.

Do Not Agree.

Johnson and Wilson, the supposed murderers of old man Cluvenger and wife who were taken below Wednesday night, tell different stories relative to the fate of the old couple. The former claims that he was away from camp when the old folks disappeared, but the fact that he received for his share of the spoils four horses, is not consistent with his claim of innocence.

NEVADA LEGISLATURE.

The Proceedings of the Thirty-eighth Day.

SENATE.

On motion Senate Joint and Concurrent Resolution No. 12, relative to amending the Constitution of the United States, was taken up and the Senate resolved itself into Committee of the Whole for the consideration of the Assembly amendments to the Resolution, President pro tem. in the chair.

By invitation Senator Stewart addressed the Senators on the subject and argued that the Mormon doctrine was diametrically opposed to the genius of American institutions and that the amendment disfranchising all who professed the Mormon faith, should be adopted by the present Legislature.

The arguments of Mr. Stewart were plausible and seemed to convince his hearers that the amendments should prevail.

At the conclusion of Mr. Stewart's remarks the matter was fully discussed by senators Briggs, Harris and Hardesty opposing the amendment for reasons explained by these gentlemen. The Committee of the Whole reported favorably on the amendment, in which the Senate concurred, and so the Resolution passed.

At 12:10 the Senate adjourned till 1:30 P. M.

Assembly.

MOTIONS AND RESOLUTIONS.

GENERAL FILE.

On motion of Mr. Pike, Assembly resolved itself into Committee of the Whole to consider S. B. No. 58, Mr. Hale in the chair. [Provides for erection of a County Hospital in Churchill county.]

Mr. Pike offered a substitute bill, which remedies a defect in the original bill. Passage recommended.

Bill passed in House.

Recess till 1:30.

TUESDAY AFTERNOON'S SESSION.—SENATE.

S. B. 67, (Thoma's)—Protecting live stock from disease. Ordered engrossed.

The following bills were considered in Committee of the Whole:

S. B. No. 71—Establishing a weather service station. Passage recommended.

A. B. 47—To create Forest Commissioner, and A. B. 26 to provide for the admission of State Orphans to University. Adverse recommendation.

S. B. No. 4—To provide for the appointment of guardians. Passed. Substitute for S. B. 21, punishing embezzlement. Passed.

ASSEMBLY.

Senate Bill No. 59, Briggs' Railroad bill, came up on special order. After a long debate and the offering of numerous amendments, which were lost, the bill passed by a vote of 37 to 3. Clapp was the principal speaker in the debate, standing in strongly against the bill.

Testimony of a Painter.

No. 105 CARLTON AVENUE, BROOKLYN, N. Y.

Allcock's Porous Plasters are undoubtedly the best external remedy manufactured. I make this assertion to the public from my own personal experience of their wonderful virtues. Suffering from severe pains in my side and chest, contracted through a severe cold, I applied a couple of Allcock's Porous Plasters upon going to bed at night. The result was that in eight hours after applying them I could get up and walk about with very little pain or ache, when the night previous I could neither get up nor down without help, nor stoop to remove my shoes. I have since used them in my family for various ailments, and have never known them to fail to give almost immediate relief. T. H. BACKUS.

If a well be poisoned, we be to those who drink thereat. It is worse to poison the fountain of life for one's self, and for posterity. Often, by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla cleans the blood, the circulation, and restores appetite, strength and health.

PERSONALS.

Mrs. Millie Barnett left last evening for San Francisco.

James Cross and family of Candalaria arrived from the south last evening.

J. H. Dennis of the Battle Mountain Central Nevada passed west last evening.

Judge R. S. Mesick and S. L. Jones arrived from the Bay on this morning's express.

J. N. Thacker, Wells-Fargo's detective, came up from below on this morning's overland.

W. H. McInnis left for Carson this afternoon, where he is soon to accept the position of Captain of the Guard at the State Prison.

Without danger the baby's cough can be cured by Red Star Cough Cure. No poisons.

Robbery at Palisade.

A daring robbery occurred Tuesday night at Palisade, in which B. S. Sothern, Wells, Fargo & Co.'s agent is the principal sufferer. Mr. Sothern was in Jule's store, opposite the express office until 10 o'clock, when he returned to the office as usual. Shortly after seating himself to read, he heard a knock on the main door of the office and, supposing it was the boy, Fritz, who usually came at that hour for papers, opened the door. The robbers—two in number—seized and struck him over the head, knocking him down on a truck and hurrying his side badly. The daring robbers then compelled him to unlock the safe after which they tied him to his bed which was in the room, and ransacked the safe. They took about \$400, the most of which belonged to Mr. Sothern himself, \$30 only belonging to Wells, Fargo & Co. The men were masked in such a manner as to make identification difficult.

The Latest and Greatest Discovery.

Dr. J. De Prati's Hamburg Figs—A crystallized fruit cathartic—the discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious that adults, that a single dose will cure the most obstinate constipation, indigestion, dyspepsia and piles they are a specific. To averters by sea and land they will be found invaluable. They are positively unailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every Druggist throughout the world. Price 25 cents a box. J. L. Mack & Co., Prop's, 9 and 11 Front Street, San Francisco, California.

Delayed Mails.

In answer to Rix's statement that papers are not received regularly at Susanville, Postmaster Hagerman states to the GAZETTE that all mail leaves Reno postoffice at 7:30 A. M. except when the east-bound train is late which necessarily detains mail here unless the N. & C. Railroad waits for it. If there is any detention of mail or any missing, it must all occur between here and point of destination.

Trouble Ahead.

When the appetite fails, and the sleep grows restless and unrefreshing, there is trouble ahead. The digestive organs, when healthy, crave food, the nervous system, when vigorous and tranquil, gives its possessor no uneasiness at night. A poor appetite, should not be a mere appetizer, nor are the nerves to be strengthened and soothed by the unaided action of a sedative or a narcotic. What is required is a medicine which invigorates the stomach, and promotes assimilation of food by the system, as well as other parts of the physical organism, are strengthened. These are the effects of Hostetter's Stomach Bitters, a medicine whose reputation is founded firmly in public confidence, and which physicians commend for its tonic, anti-bilious and other properties. It is used with the best results in fever and ague, rheumatism, kidney and uterine weakness, and other malady.

Being Appreciated.

Mr. Otto of Susanville, accompanied by his ward, Miss Mary Heap, came to Reno a few days ago. He placed Miss Heap at Mt. St. Mary's Academy for the ensuing term. The genial Dave Evans of Antelope has also placed his daughter, Miss Louise, at Mt. St. Mary's Academy.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicine, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with "Green's August Flower" and "Booth's German Syrup," as the reduction of 36 cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The "August Flower" for dyspepsia and liver complaint, and the "German Syrup" for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size. nov30yl

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but with stimulants, spicing medicines, or bitters, which leave for their basis very cheap, bad whiskey, and which stimulate you for an hour, and leave you in worst condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters and only 50 cents a bottle at S. J. Hodgkinson & Co's Drug Store.

No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs and all other ailments of the respiratory organs tending towards consumption. In all ordinary cases it is a certain cure, and it affords rare relief for the asthmatic and consumptive, even in advanced stages of disease.

Some Wayside Notes.

(BY GUEFF.)

Mrs. Carlisle, the wife of the Speaker, has a parrot that calls for cocktails when it is out of sorts, and says "hurrah for Carlisle" when it feels good. For several days after the late election in Kentucky it put in most of its time yelling for cocktails.

The New York Legislature has a bill under consideration providing that no fish less than six inches long shall be caught. As most anything can be managed by legislative enactment it will probably be made a misdemeanor for a fish of less size to snap up a hook.

An eastern paper is authority for the statement that it cost Mrs. Logan \$30 per day for messages of condolence received for a few days after the General's death. It seems scarcely possible that anyone would send expressions of sympathy and ask the widow of the brave General to pay charges. Yet there are some queer people in these United States of ours. It is safe to say that no unpaid telegrams went from any of the people of the Rocky mountains.

The debate on Senator Fish's bill on mortgages brought out some odd illustrations. One Senator was afraid there would be a chance for men to mortgage their wife's dresses. It is barely possible that there is a man in Nevada who would do this, but if something could be done compelling some women to wear calico dresses until their husbands could work out of debt, it would be a good measure for the husbands.

The other day in the State Senate Mr. Noteware started to find some man with a chew of tobacco to spare. It brought out some facts but no tobacco. There was not a chew among the Senators nor in the lobby. Charley Wallace was just out. Note made a wild break for Charley Bicknell's rooms, got a chew and stopped to relieve his mind a little about a Legislative body that hadn't just one chew on hand. He got a call of the Senate and had to pay a fine of \$1 to get in.

People with phenomenal fortunes are usually objects of interest. It is also true of those who have had money to throw at the birds, and have thrown it. Coal Oil Johnny is a specimen. The newspapers follow him up pretty well although his path has been rather devious. He used to light his cigars with dollar bills; now he is glad to warm his toes by a kitchen stove. He slept the other night in a jail in N. J., a common tramp.

Mr. Raymond, of excursion fame, is doing the people of the east a good service in addition to furnishing them cheap fare to the Pacific coast. He brought out a number of Puritan maidens to wait on the table at his big hotel at Pasadena. The girls took one breath of freedom and room and got married. This accounts for some of the Southern boom.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at S. J. Hodgkinson & Co. drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free large bottle \$1. Every bottle warranted.

Notice!

Manning & Jaques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, dectif Supt. Reno Water Co.

MISCELLANEOUS.

ROBUST HEALTH

It is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sv, zoll, skin disorder and sense of unnatural astidude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

It is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alternative that is sufficiently powerful to thoroughly cleanse the system of Scrofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, the past forty years, are attested, and that a no blood disease, at all possible of cure that will not yield to it. Whatever the character of this class, and wherever found from the searv of the Arctic circle to the "veldt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, with their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

Trust Nothing Else

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is

Ayer's Sarsaparilla,

A Columbus (Ga.) cat has taken possession of a last year's bird's nest on the top of a thick elm tree in that city, and the nest now contains five young kittens.

Some remarkable cats are entered for the cat show in New Haven, Conn. There is a full dozen or more of five and six-toed cats. Striped Beauty, a tiger cat, weighs fourteen pounds. Dick, a maitese, follows like a dog. A jet-black cat, with eight toes on each fore paw, weighs 23 pounds. Jack, owned by the men of Steamer C, of the New Haven fire department, has one yellow and one blue eye.

The New Comet That's Coming.

According to the astronomers we are to be treated this spring to the spectacle of a comet of rather respectable appearance. It will come to view in the western sky, and remain on exhibition all night, reaching its greatest brilliancy early in May, and retaining it for two weeks or more, though remaining visible to the naked eye for a much longer period. Our first glimpse of it will be about the middle of April. Its nearest approach to the earth will be about 12,000,000 miles, which is nearer than any of the important celestial tramps have ventured to come to us for many years.

"What is spirit, papa?" asked a little boy just from Sunday-school. "A spirit, my boy," replied the father, after much cogitation, "is something which can perceive, but cannot see."

"Yes, I know," said the hopeful son, who in turn had taken time to consider; "it's what you smelt of after coming out of the cupboard last evening."

A Kentucky Man's Scheme.

A good story is told of a Kentuckian who was fond of fine whisky and always kept his jug. He it was that said: "I never saw any more whisky. Some is better, but all is good." One night when he had company at his home, he was observed to take out one guest at a time and treat to a choice swig. Returning, he would take out another. When asked about this, he said: "Why, by drinking with them singly I got half my whisky myself. See?"—Atlanta Constitution.

An Opportunity to Secure a Home at Reno!

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Robert Heenev greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against you, Robert Heenev, defendant, for the sum of four hundred and fifty and 50/100 (\$450.50) dollars for fourth, fifth, sixth and seventh years interest on the remainder of purchase money, and for the remainder of purchase money arising out of a certain contract with said company, plaintiff, to purchase the E 1/4 of the SE 1/4 of sec. 15, T 19, N R 19, E. M D B and M, Washoe county, Nevada, containing 80 acres, said contract entered into Sept. 13, 1880; that you be required to pay said sum within 30 days from rendition of judgment, and in case of failure to pay within said 30 days, that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs and attorney's fees which will more fully appear from the complaint which is on file in the office of the Clerk of said Court of Reno, in said County. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. (seal) Julien, have hereunto set my hand and affixed the seal of said Court, this, 9th day of November, A. D. 1887.

Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County.

JOE D. BEDDING, Attorney for plaintiff.
